RELEASE NOTES

SYSTEM NAME: CAIS Web			

Application Version #: 1.14		**Developer Name(s)**: Ken Rowe	
Database Version #:		**Were Database Changes Needed?**	**No**
Date: 12/27/2007		**Are Documentation Changes Needed?**	**Yes**

TOP 5	Testing	Identifier #	Description
Yes		948	Asset List for Inspection Screen and Asset List for Asset Maintenance Screen - have the ability to sort on columns like before.
Yes		1007	Add 'Check All' and 'Uncheck All' to the Summary Condition Report, IU Level Reports and Asset Level Reports.
Yes		2000	Create three CAIS/FIMS reconciliation reports: CAIS/FIMS Common Field Discrepancy Report Assets in FIMS and Not in CAIS Report Assets in CAIS and Not in FIMS Report
Yes		1045	Add filtering by Site Defined to the IU Level reports.
		1031	The creation and last update date are now blank when you use copy all on the IU Detail screen.
Yes		960	The headers of most long lists are now locked at the top. The following screens are affected: • Geographic Adjusters • Model Types • Locations • Model Types • Asset List for Asset Maintenance • Asset List for Summary Condition • Asset List for IU Maintenance • Asset List for Asset Level Reports • Asset List for IU Level Reports • IU List
		1072	The rounding discrepancy between the Official Cost and the Replacement cost on the IU Detail screen has been corrected.
		B4	The HTML, PDF and Excel versions of the FY Buydown reports now give the same results. Before this fix, the PDF and Excel assumed the 'Show Buydowns Only' flag is No when it is blank.
			Added the Ad Hoc Reporting Guide to the About CAIS/Community and Conferences menu.
			Changed the sort buttons to sort icons on the IU List so that the columns would be narrower and more columns could be seen without the need to scroll left and right as much.
